Dear Residents, Families, and Friends:

Visitation remains open at all of our facilities, and the community transmission rates remain at a high level. The visitation guidelines remain the same and are noted below.

Following are the current visitation guidelines:

- Visitors need to complete the screening log upon entry to the facility.
- Visitation is open, and in-person visits no longer require an appointment. Visits by Zoom can be scheduled on our website [www.vaahs.com](http://www.vaahs.com).
- You are able to visit regardless of the COVID status of the Resident.
- Mask wearing is based on community rates of COVID being high.
- Residents and visitors may choose to not wear a mask or face covering when alone in the resident’s room or in a designated visitation area.
- For facilities in outbreak status, visitors should limit movement in the facility and practice social distancing.
- Wearing a mask is required in the following situations:
  - If there are active cases of COVID in the facility (in outbreak status)
  - While in common areas, around other Residents, and in conversations with staff.

The table below summarizes the current community rate of COVID infections, and the masking requirements.

Facility	Phone Number	Masking & Community Rates			Cumulative COVID+ Cases & Recoveries
