

VHS Home Health Care helps you get back to living your best life by providing skilled care in the safety and comfort of your home.

VHS Home Health Care coordinates your care with a team dedicated to getting you back to living your best life.

Our team of professionals includes nurses, therapists and social workers with one goal: to empower you to live as independently as possible. We train and educate you and your loved ones to help you gain independence.

As a continuum of care from a rehab or hospital setting, research shows receiving care at home with home health services can effectively help you get back to your best life. It is typically covered by Medicare and most commercial insurances.

VHS | Home Health Care

Your best life is our mission.

Service areas include:

Peninsula

Southside

Middle Peninsula

VHS Home Health Care is part of Virginia Health Services' continuum of care, which provides healthcare options for every stage of aging. We offer independent and assisted living communities, skilled and long-term nursing and rehabilitation care, home health care, outpatient rehabilitation and hospice care.
